NIVEL DE COMPATIVILIDAD

```
select d.compatibility_level
from sys.databases as d
where d.name = db_name()
go

--compatibility_level
--140

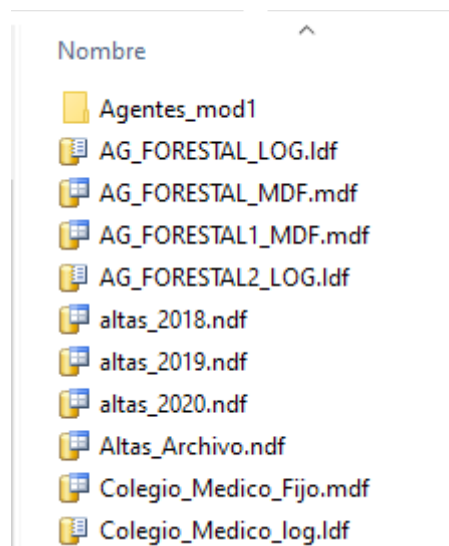

-- cambiar el nivel

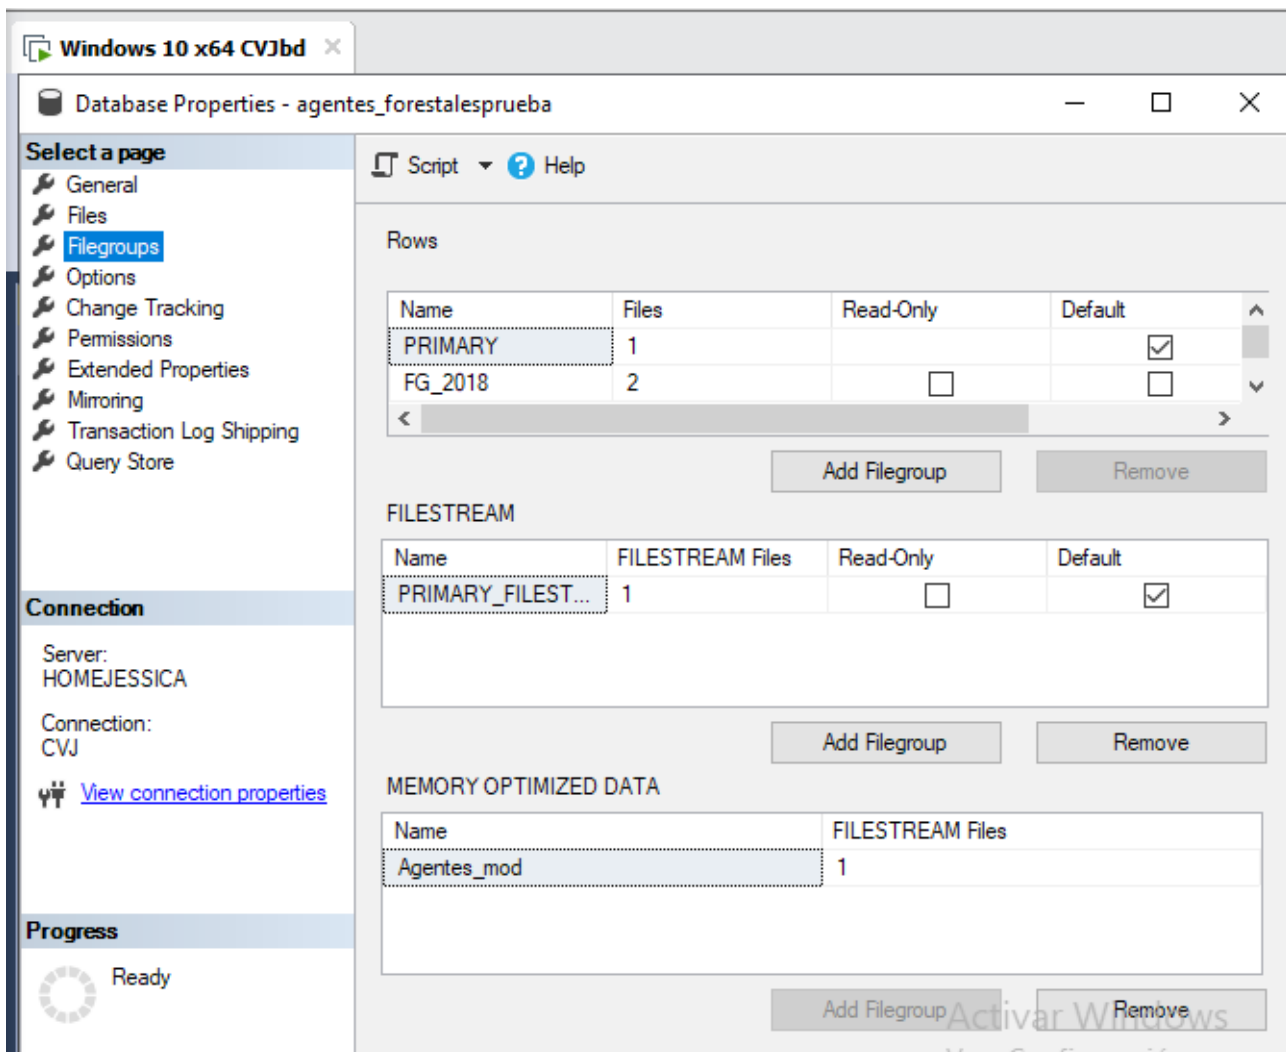

--alter database current
--    set compatibility_level = 140
--go

alter database current
    set memory_optimized_elevate_to_snapshot = on
go

alter database [agentes_forestalesprueba]
    add filegroup Agentes_mod
    contains memory_optimized_data
go

alter database [agentes_forestalesprueba]
    add file (name='Agentes_mod1',
    filename='c:\Data\Agentes_mod1')
    to filegroup Agentes_mod
go
```

comprobamos si esta activo
